

OfficeServ

7000 Series

The smarter way to do business

OfficeServ 7030, 7100, 7200, 7400

The OfficeServ 7000 series has been designed to deliver advanced voice, data and wireless communications in a single IP platform.

Businesses can deploy OfficeServ 7000 to build sophisticated telephony applications, secure data-communications infrastructure and policy-driven networks. OfficeServ 7000 series has a comprehensive range of features and functionality and offers an effective, affordable solution for any organisation. So, whether you are a small office, a head office or a branch of a larger organisation with a need to take advantage of cutting-edge solutions, the OfficeServ 7000 series becomes the heart of your communications network.

Modular design for efficient scale

The OfficeServ 7000 comes in four variants, from the entry level 7030 to the 7100, 7200 and 7400. The systems can be configured to accommodate 4 to 480 extensions at a single site and combined to link 1,000 sites. Systems use common interface modules and can utilise the same software applications and terminals.

Feature Richness

OfficeServ makes unified communications solutions deployment simple, without sacrificing features and functionality for mission-critical business applications: security systems, policy management and advanced telephony.

Voice Messaging

All of the OfficeServ systems in the range have a powerful voice messaging capability. Including large capacity recording, the ability to connect your voice message to e-mail and send to your inbox. Also providing high end facilities such as Q&A mailboxes, group mailboxes and personal auto attendant. The ability to process faxes can also be enabled.

Applications

The OfficeServ systems provide a platform for a whole range of applications including, Generic personal productivity, presence and messaging as well as more specialist applications for Call Centres, Hotels, Healthcare and Taxi companies.

OfficeServ

7000 Series

Clear Benefits

Remote Working

- Easy to enable mobile and VoIP home-working.
- Great flexibility whilst maintaining control of employees and costs.
- Increased employee productivity.
